Life/form® Human Reproduction and Development Kit

There's no better way to depict the actual size and developmental stages of a fetus than with these incredibly realistic replicas! Dramatic, **Life/form®** fetal reproductions show the stages of human development in a unique, innovative way — through hands-on plastic models and replicas each student can examine. The four fetal replicas above are magnified 10 times to show detail, while the others actual size. The kit offers a complete approach to an understanding of human reproduction from fertilization to birth. The accompanying teaching guide provides in-depth background information and study questions, along with black line drawings and a CD-ROM in PowerPoint® format. The multimedia kit also includes *The Miracle of Life* DVD program, which tells the fascinating story of embryonic and fetal growth. Three-year warranty. Sh. wt. 11 lbs.
