SAFETY DATA SHEET

1 IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

MARABO PRODUCTS CANADA LTD
Abbotsford V2S 8K5
Telephone 1 604 308 5843 Fax 1 604 608 3268

PRODUCT **Dynamint Green Cream**
PRODUCT CODE Dyna GC

2 HAZARDS IDENTIFICATION

Non hazardous material - This material does not contain a raw material with an OES/MEL published in HSE document EH40.

3 FIRST AID MEASURES

Eye contact Rinse immediately with plenty of water, holding the eyelid open. In the case of irritation seek medical advise
Skin contact In the event of irritation wash thoroughly with soap and water
Inhalation Remove from source of vapour
Ingestion Remove product from mouth, give plenty of water or milk to drink and seek medical advice.
Do not induce vomiting.

4 HANDLING AND STORAGE

Avoid contact with skin and eyes. Use in a well ventilated area. Do not mix with chemicals other than water.
Store in original containers in a cool dry place.

5 EXPOSURE CONTROL/PERSONAL PROTECTION

Hands Use rubber gloves resistant to detergents
Eyes When handling product wear eye protection.
Skin Wear normal workwear, overalls or coat.
Respiration Use in a well ventilated area
OES/MEL Not known

6 FIRE FIGHTING MEASURES

NON FLAMMMABLE.

7 ACCIDENTAL RELEASE MEASURES

Wear suitable gloves and face/protection. Scrape up and dispose of in commercial waste.

8 DISPOSAL CONSIDERATIONS

This product does not contain any prescribed substance under the Environmental Protection Act (Prescribed Processes and Substances) Regulations 1991 and is not classified as special waste under the Control of Substances (Special Waste) Regulations 1996.

9 STABILITY AND REACTIVITY

Provided the product is stored in accordance with the approved guidelines there are no known hazardous decomposition products.

10 COMPOSITION/INFORMATION ON INGREDIENTS

Preparation containing:- Essential Oils, emulsifiers, preservative and polymer thickener.

11 PHYSICAL AND CHEMICAL PROPERTIES

Apearance Green Creamy Fluid
Flammability Non flammable
Solubility Miscible with water.

12 TOXICOLOGICAL INFORMATION

Eyes Irritant
Skin May cause irritation in sensitive individuals
Inhalation May cause irritation by inhalation in sensitive individuals
Ingestion May cause irritation on ingestion

13 ECOLOGICAL INFORMATION

Amongst other things this product contains:

Essential oils and polymers that may be harmful to aquatic organisms.

14 TRANSPORT INFORMATION

EEC Regulation	Not regulated
IMDG/UN	Not regulated
RID/ADR	Not regulated
ICAO/IATA	Not regulated

15 REGULATORY INFORMATION

Hazard Symbol	None
Risk phrases	None
Safety phrases	None necessary

16 OTHER INFORMATION

VERSION March 2010

HEALTH & SAFETY DATA SHEET

MANUFACTURER – MARABO PRODUCTS CANADA,

PRODUCT NAME: **Dynamint Cream**

NUMBER: **Bovine Composition**

1. PRODUCT IDENTIFICATION

Name & Address of Supplier:
Marabo Products Canada Ltd
Suite # 105
151 - 32500 South Fraser Way
Abbotsford, BC V2T 4W1
Canada

Intended Use: **Skin Care**

2. COMPOSITION

Composition
Peppermint Oil
Eucalyptus Oil
Calendula Officinalis Flower Extract
Tea Tree Oil
Sorbitan Oleate
Phenoxyethanol
Sodium Acrylate Copolymer
Silica, Optionally FD&C Color

This product is an emulsion containing around 90% water with around 5% essential oils and a non-ionic solubiliser.

POISONS SCHEDULE

None

RISK

No phrases

SAFETY

No phrases

3. HAZARDS IDENTIFICATION

Eyes: unlikely to cause irritation
Skin: unlikely to cause irritation
Inhalation: unlikely to cause irritation
Ingestion: Ingestion may cause nausea, vomiting

Hazardous Material Identification System (HMIS) Ratings

Health: 0 – minimal hazard
Flammability 0 – minimal hazard
Reactivity 0 – minimal hazard
Other hazards:

Dynamint Bovine

1 of 6

Hazard Flag No

4. FIRST AID

SKIN

Concentrate and diluted solution is readily removed with water.
Abraded or broken skin should be washed carefully and thoroughly.
Seek medical attention in event of irritation.

EYE

Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

INHALED

If fumes or combustion products are inhaled remove from contaminated area.
Other measures are usually unnecessary.

NOTES TO PHYSICIAN

Treat symptomatically.
Show this MSDS.

5. FIRE FIGHTING MEASURES

EXTINGUISHING MEDIA

There is no restriction on the type of extinguisher which may be used.
FOG CO₂ yes **FOAM** yes **DRY CHEMICAL** yes

FIRE FIGHTING

Alert Fire Brigade and tell them location and nature of hazard.
Wear breathing apparatus plus protective gloves for fire only.
Prevent, by any means available, spillage from entering drains or water courses.
Use fire fighting procedures suitable for surrounding area.
DO NOT approach containers suspected to be hot.
Cool fire exposed containers with water spray from a protected location.
If safe to do so, remove containers from path of fire.
Equipment should be thoroughly decontaminated after use.

FIRE/EXPLOSION HAZARD

Non combustible.
Not considered to be a significant fire risk.
Expansion or decomposition on heating may lead to violent rupture of containers.
Decomposes on heating and may produce toxic fumes of carbon monoxide (CO).
May emit acrid smoke.
Other decomposition products include carbon dioxide (CO₂) and carbon monoxide (CO)

FIRE INCOMPATIBILITY

None known

HAZCHEM

None

PERSONAL PROTECTION EQUIPMENT

Gloves, boots (chemical resistant)

6. ACCIDENTAL RELEASE MEASURES

MINOR SPILLS

Clean up all spills immediately.

Slippery when spilt.

Wipe up.

Place in clean drum then flush area with water and detergent.

MAJOR SPILLS

Slippery when spilt.

Minor hazard.

Clear area of personnel.

Alert Fire Brigade and tell them location and nature of hazard.

Control personal contact by using protective equipment as required.

Prevent spillage from entering drains or water ways.

Contain spill with sand, earth or vermiculite.

Collect recoverable product into labelled containers for recycling.

Absorb remaining product with sand, earth or vermiculite and place in appropriate containers for disposal.

Wash area and prevent runoff into drains or waterways.

If contamination of drains or waterways occurs, advise emergency services.

7. HANDLING AND STORAGE

Limit all unnecessary personal contact.

Wear protective clothing when risk of exposure occurs.

Use in a well-ventilated area.

When handling DO NOT eat, drink or smoke.

Always wash hands with soap and water after handling.

Avoid physical damage to containers.

Use good occupational work practice.

Observe manufacturer's storing and handling recommendations.

8. EXPOSURE AND PERSONAL PROTECTION

STORAGE INCOMPATIBILITY

None known

STORAGE REQUIREMENTS

Store below 25 degrees.

Store in original containers.

Keep containers securely sealed.

Store in a cool, dry, well ventilated area.

DO NOT allow to freeze.

Store away from incompatible materials.

Protect containers against physical damage and check regularly for leaks.

Observe manufacturer's storing and handling recommendations.

Exposure limits are listed below, if they exist.

Not available. Refer to individual constituents.

ENGINEERING CONTROLS

None under normal operating conditions.

Provide adequate ventilation in warehouse or closed storage areas.

APPEARANCE

A lightly straw coloured, uniform oily liquid, free of foreign matter, with fragrance to match a standard; totally immiscible with water.

9. CHEMICAL AND PHYSICAL PROPERTIES

Appearance	blend of essential oils in an oil-in-water emulsion
Odour	pleasant smell
Specific Gravity:	0.995-0.998 (Water = 1)
Stable at normal storage and handling temperature	
Boiling point/Boiling range (°C)	not given
Melting point (°C)	not given
Flash Point (°C)	>400 °F
pH	6.5-7.5
Explosive properties	not explosive
Oxidising properties	none
Water reactivity	immiscible in water with no exothermic reaction
Solubility: water solubility	soluble @ 0°C
: oil solubility	insoluble
Partition coefficient	
: n-octanol/water	data not available
Viscosity	data not available
Vapour density	data not available
Vapour pressure	data not available
Evaporation rate	data not available

10. STABILITY AND REACTIVITY

CONDITIONS CONTRIBUTING TO INSTABILITY

Product is considered stable and hazardous polymerisation will not occur.

11. TOXICOLOGICAL INFORMATION

This product has been fully assessed according to the Regulation of the European Parliament and of the Council on cosmetic products (recast) 2008/0035 (COD) dated 10 November 2009 (finally as 1223/2009 on 30 November 2009) which replaces all other regulations. All ingredients had a margin of safety in excess of the minimum requirement of 100 with the lowest value over 200 (spearmint oil).

POTENTIAL HEALTH EFFECTS

ACUTE HEALTH EFFECTS

SWALLOWED

Ingestion may result in nausea, abdominal irritation, pain and vomiting

EYE

The liquid may produce eye discomfort causing smarting, pain and redness.

SKIN

Excessive use or prolonged contact may lead to excessive oiliness and slippery skin, in rare cases may cause unexpected irritation of sensitive skin. Not considered an irritant through normal use.

INHALED

Not normally a hazard due to non-volatile nature of product.

CHRONIC HEALTH EFFECTS

Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course.

TOXICITY FIGURE

The estimated LD₅₀ (oral) value would be >5,000mg/kg

The estimated LD₅₀ (dermal) value would be >2,000mg/kg

Based on similar formulations seen by the assessor.

12. ECOLOGICAL INFORMATION

Dangerous ingredient: The total concentration of any ingredient classified as 'N Dangerous for the Environment' is below the level for classification of the product, thus damage to the environment is unlikely.

Mobility:

Degradability:

Accumulation:

Effects:

13. DISPOSAL CONSIDERATIONS

Dispose in accordance with local environment laws and regulations. Bulk spills and waste product should be placed in secure containers and labelled clearly. Local regulatory authorities should be consulted about the most appropriate form of waste disposal. The Body Shop International must receive documentation confirming the final site and method of disposal in accordance with local and UK law. Rinsings from containers may be disposed to drains served by a sanitary sewer provided that this is permitted by local regulatory authorities.

14. TRANSPORT INFORMATION

Shipping Name: None

Dangerous Goods Class: None
