This letter is in response for your request for Safety Data Sheets for products currently purchased from Fairchild Industries.

These products are considered articles by OSHA Standard 29 CFR 1910.1200(c). An article by this standard means:

"a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees"

We believe our products fit the above criteria and therefore are exempt from this request.

Kind Regards,

Lisa Mulvihill
