Child CRiSiS™ Airway Management Trainer

LF03633U

INSTRUCTION MANUAL
ABOUT THE SIMULATOR
The Life/form® Child CRiSis™ Airway Management Trainer is the most realistic simulator available for the training of intubation and other airway management skills. Nasco has taken great care to create an airway management trainer that is anatomically correct in respect to both size and detail. Landmarks include nostrils, teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false and true vocal cords, trachea, esophagus, lungs, and stomach. The Life/form® Child CRiSis™ Airway Management Trainer allows you to practice oral, digital, and nasal intubation, as well as suction techniques. The simulator was designed to use an uncuffed endotracheal tube measuring up to 5.0 mm I.D. With proper care, your Life/form® Child CRiSis™ Airway Management Trainer will provide years of valuable service.

LIST OF COMPONENTS
- Life/form® Child Airway Management Trainer with Child CRiSis™ Torso

SET UP
Your Life/form® Child CRiSis™ Airway Management Trainer is ready to use upon delivery. Simply remove from carton and unwrap packaging material.

LUBRICATION
Before intubating the Life/form® Child CRiSis™ Airway Management Trainer, lubricate the simulator with the Nasco lubricant provided. (See figure 1)

CLEANING THE FACE
Normal soil can be removed from the face of the trainer with mild soapy water. Nasco Cleaner (LF09919U) will remove stubborn stains. Simply apply Nasco Cleaner to soiled area and wipe clean with a soft cloth or paper towel. Note: Do not use Nasco Cleaner around the mouth and nostrils, as the residue of cleaner could be toxic.

CAUTIONS
Nasco recommends the use of the enclosed aerosal lubricant or a similar vegetable-based lubricant for use with our Life/form® Child CRiSis™ Airway Management Trainer.
DO NOT use a silicone or similar lubricant. This will cause your simulator to dry and crack, and will automatically void Nasco’s warranty on the trainer.
Never place the trainer on any kind of printed paper or plastic. These materials will transfer indelible stains. Ballpoint pens will also make indelible stains.

AVAILABLE SUPPLIES
- LF03608U Nasco Lubricant
- LF03627U Replacement Lung Set
- LF03628U Replacement Stomach
- LF03631U Replacement Headskin with airway
- LF09919U Nasco Cleaner

ADD-ON COMPONENTS
- LF03611U Defibrillation Chest Skin
- LF03612U Left Arm — IV Training
- LF03613U Right Arm — Blood Pressure Monitoring
- LF03614U Right Leg — Intraosseous Infusion/Femoral Access
- LF03634U Left Leg (Nonfunctioning)
